Introduction

You can use the Agenda program as a time manager, for recording appointments, events, birthdays, anniversaries and lists of things to do.

When you first open Agenda, you'll see a planner for the current week, or the "Week view". You can start adding your appointments and other entries straight away by moving to the appropriate day and typing them in.

What if I already use a PC scheduler?

If you already keep your schedule on your PC, you can use PsiWin to synchronize your PC scheduler with a new Agenda file to quickly bring all your PC entries across. You can then synchronize regularly to keep the information up to date in both places. See the PsiWin on-line help for more details.

Displaying on-line help

To display on-line help, select the [Help on Agenda](#) option from the [Tools](#) menu.

Moving around

- Use the arrow keys to move around the days.
- Press the [Today](#) button on the Toolbar, or the Spacebar to go to today's date. Press the Spacebar again to move back to the day you were on.
- Tap on the [Goto](#) button on the Toolbar and enter the date that you want to go to. Tap OK.
- Tap on the "dog ears" in the bottom corners of the pages to move between pages.
- To move between dates, tap on the title of the view to see a calendar (you can also press Tab in some views). Move the highlight to the date you want and press Enter.

Note: The Agenda has a number of other views, e.g. a Day view and a Year view. You can set preferences to change which view you see when you first open the Agenda program, and customize other aspects of the way Agenda works. See '[Customising Agenda](#)' later.

Adding appointments & events

Agenda has 3 types of entries for appointments and events:

- **Timed day entries** for appointments that you wish to give a duration, e.g. a meeting or dental appointment. The duration can be displayed in the Agenda views so that you can see when you are busy. A timed entry can have any duration (up to 31 days).
- **Untimed day entries** for an appointment without a duration.
- **Events** for entries that you wish to last a specified number of days, which do not have start and end times, e.g. holidays.

Timed & untimed entries

To enter a “timed” or “untimed” day entry:

1. Move the cursor to the date of the appointment and start typing. As soon as you start typing the New entry dialog is shown where you can set the start time and duration of the appointment. If the appointment does not need a start time, remove the tick from the Timed entry box.
 - A timed entry appears with a start time, and can also be displayed with a duration. Entries that cross midnight are marked with « on subsequent days.
 - An untimed entry appears with a bullet and is displayed in the time slot where you type it in.
2. You can set the duration or end time of a timed entry in the New entry dialog, or tap the [Alarm/More](#) button and move to [Details](#) page to enter a duration longer than 23 hours.

Note: Each view has a standard entry type that is created when you start to type. To add other types of Agenda entry, select [Create new entry](#) from the [Entry](#) menu, and then select the type of entry you want. You can change the standard entry type for each view. See ‘*Customising Agenda*’ later.

Note: You can add a handwritten entry by writing the entry as a sketch; see ‘*Attaching a sketch*’ later.

Events

- **To enter an event:** select the command for creating a new event from the [Entry](#) menu. Type in the details of the event, e.g. ‘Holiday in Spain’ and set the start date and duration in days. Event entries are marked with a flag symbol .

“Pencilling in” a tentative entry

- **To pencil in an Agenda entry, e.g. to reserve a time slot for an appointment that has not been confirmed:** press the [Alarm/More](#) button in the New entry dialog, move to the [Other](#) page and tick the tentative entry box. The entry will be displayed as grey text in the Agenda views.
- **To confirm a tentative entry:** highlight the tentative entry, then select the [Make tentative](#) command from the [Entry](#) menu to remove the tick from the menu command.

Viewing entries

Agenda has the following views, for looking at Agenda entries in different ways:

- Day view - shows all the entries for one day, hour by hour.
- Week view - shows the entries for the whole week.
- Anniversary view - shows birthdays, anniversaries, etc.
- Busy view - showing your free and busy time over a four-week period.
- To-do view - shows lists of things to do.
- Year planner - shows an overview of entries for the year, and displays entry symbols.

Switch between the views by tapping on the [View](#) button or by selecting the view from the [View](#) menu.

You can set preferences to change the way the views look. See ‘*Customising Agenda*’ later.

Entry symbols

You can group entries together using “entry symbols”. An entry symbol is a letter you can use to identify particular entries, for example, M for meetings. The entry symbol can also be used to show entries in the Year planner.

Birthdays and anniversaries

1. Move to the Anniversary view and just start typing, or select the command for creating a new anniversary entry from the [Entry](#) menu in any view.
2. Type in the details of the anniversary, e.g. ‘Jane’s birthday’ and set the day and month of the anniversary.
3. Press the [Alarm/More](#) button if you wish to specify other details about the anniversary, e.g. the start year and whether you want to see the start year (e.g. a person’s year of birth) and/or the number of years since the start year (e.g. their age).

Anniversaries are marked with a candle symbol .

Reminders for entries - alarms

To set an alarm for an Agenda entry:

1. Move the cursor to the entry.
2. Set the alarm using the command from the [Entry](#) menu. You can also set an alarm while adding an entry, by pressing the [Alarm/More](#) button in the New entry dialog and then moving to the [Alarm](#) page.
3. Set the amount of warning that you want, or the time at which you want the alarm, and the alarm sound you want.

Initially you will see the list of standard alarm sounds, but you can add your own sounds for alarms using the Record program. See the ‘*Customising your netpad*’ document for more details.

Entries that have alarms are marked with a bell symbol .

- To remove an alarm, select the [Set alarm](#) command from the [Entry](#) menu and remove the tick from the alarm box.

Will alarms still ring if I close Agenda?

If you close an Agenda file, the Agenda informs the netpad clock to ring the next Agenda alarm at the appropriate time. However, the netpad will not be able to ring any further Agenda alarms from that file until you open it again.

If you use alarms a lot in your Agenda, it is therefore a good idea to leave the Agenda file open when you are not using it, even when the netpad is switched off.

If you do need to close the Agenda file, do not set an alarm and then immediately close the file or switch off. This is because the Agenda program needs a certain amount of time to calculate when the next alarm should ring, and if you switch off before the calculation is complete, the netpad clock will not have been informed to sound the alarm.

Finding entries and dates

You can search through the Agenda entries for a particular piece of text or for entries with particular settings, or a particular entry symbol.

1. Tap the **Find** button on the Toolbar or select the command from the **Edit** menu.
2. Type the text you want to find (you can leave the line blank if you want to list all of the entries). Select the dates you want to search using the range lines. Select any other settings as appropriate; press the **Options** button to select the entry types you want to find.

A list of matching entries is shown. Move the cursor to an entry in the list and press Enter to display it in full.

Use the commands from the **Edit** menu to go to the previous or next entry or to go to a specific day.

Using the calendar

You can also go to a specific day using the built-in calendar. Tap on the date titles or press Tab to display it in the Day, Week, or Anniversary views; alternatively select the **Calendar** command from the **View** menu in any view. Today's date is circled, and the currently selected date is highlighted. In a calendar you can:

- Press the buttons in the top of the calendar to see a 1-, 3- or 12-month calendar.
- Tap on the “dog ears” in the bottom corners of the calendar to move between the calendar “pages”.
- Use the left and right arrow keys to move between days. Use Shift at the same time to move between dates in a month, Ctrl to move to the same day in the previous or next month, or Fn to move to the first or last date on the “page”.

When the highlight is on the day you want, press Enter to move to that day.

Changing and deleting entries

- **To move or copy an entry:** use the **Cut** or **Copy** commands from the **Edit** menu to move or copy an entry.
- Move the cursor to the new entry position and paste the entry. All entry details are transferred to the new location; alarm settings are adjusted accordingly.
- **To change an entry's “type”, e.g. to change a day entry to an event:** highlight the entry you want to change and select the command from the **Entry** menu. Select the new entry type, and complete the settings for the new entry type.
- **To change the entry text:** highlight the entry you want to change and tap on it, or press Enter. Now you can edit the text, making use of the normal text selection and emphasis keys. If you wish to change the font, letter size, etc. press the **Alarm/More** button, then move to the **Text** page. You can also move an entry by editing the entry in this way and changing the entry time or date.

Deleting entries & crossing out

To remove an individual entry from the Agenda, select it and press Delete or use the command from the **Edit** menu.

- You don't have to delete individual entries in the past; these can be removed automatically by “tidying” the Agenda file. See ‘*Tidying an Agenda file*’ later.

- If you want to mark an entry as completed, without removing it from the Agenda, move the cursor to it and cross it out using the command from the [Entry](#) menu. The entry will now appear in the Agenda views with a line through it, and any alarm for this entry will be cancelled.

Repeating entries

You can set an entry to repeat automatically, e.g. a monthly meeting.

1. Move the cursor to the entry and set the repeat using the command on the [Entry](#) menu.
2. Set up the repeat type as appropriate, e.g. Daily, Monthly, Weekly etc. You can also set the repeat to 'Monthly by date', e.g. the 7th of each month, 'Monthly by days', e.g. the first Monday of each month, 'Yearly by date', e.g. once every year on the same date or 'Yearly by day of week', e.g. the third Tuesday in March every year.
3. Press the [Alarm/More](#) button to set up the days and dates for the repeats (except for 'Daily' repeats). Set the interval for how many days, weeks, months or years you want between repeats.
 - If you only want the entry to repeat a few times, remove the tick from the 'Repeat forever' line and set the number of occurrences, or type in the date of the last occurrence on the 'Until' line.
 - If you only want to see the next occurrence of a repeated entry, you can choose to show 'Next only'.

Entries which are set to repeat are marked with ».

Note: If you select 'Next only' and the last occurrence has passed, you will not see the entry any more. Use the [Find](#) command from the [Edit](#) menu to be able to see them.

Lists and things to do

You can use a "to-do list" to note down tasks or items you want to remember. Initially you have two to-do lists, and you can add more lists later.

You can also give each item on a to-do list a due date, and assign priorities to to-do entries to control the order they appear in the Agenda views.

To-do entries are marked with a circled 'T' symbol .

Adding a to-do

1. Move to the To-do view and just start typing, or create a new to-do entry using the command from the [Entry](#) menu.
2. Type in the details of the to-do, e.g. 'Buy paper'. The "Priority" can be used to determine the order in which to-do entries are listed in the to-do list; priority 1 is highest.
3. If the to-do entry has a deadline, press the [Alarm/More](#) button and tick the 'Dated' box. Then set the due date to the deadline date. If you want advanced warning of the deadline, set up warnings as appropriate. You can set how due dates are shown, e.g. Date, Days or Auto (date, days and 'tomorrow') if you want to see when the to-do is due.

Creating a new to-do list

You can create new to-do lists so that you can categorise the things you want to remember, for example you can keep a private to-do list and a work to-do list. Each to-do list is displayed on a "page" in the To-do view. Move between the to-do list pages by tapping on the "dog ears" in the bottom corners, or using the left and right arrow keys. Tap on the to-do list title to see a list of available lists.

1. Create a new to-do list using the command from the [To-do lists](#) menu.
2. Type in a name for the list, e.g. 'Wedding plans'. You can rename the list later if you need to using the command from the [To-do lists](#) menu.

3. Specify the page number that you want this to-do list to appear on, and which to-do list you want to base the settings of the new list on.
 4. Press the **OK** button to save the new list, and you'll see the new list in the To-do view.
- You can delete an unwanted to-do list and all its entries, using the command from the **To-do lists** menu.

Customising a To-do list

You can change the way the to-do list looks and how to-do entries are shown in the Day and Week views.

Select **To-do list preferences** from the **To-do lists** menu.

- Each to-do list is displayed on a “page”; the page number controls the order in which the to-do lists are displayed. If you want to move the to-do list to another page, set the page number as appropriate.
- If you want to be able to arrange to-do entries on the list yourself, set the sort order to Manual. New entries you add to the list will appear at the cursor position, and you can cut, copy and paste to-do entries to put them in the order you want.
- Tick the boxes according to what you want to see in the To-do view and other views.
- If you want to see to-do entries in a specific time slot in the Day view, for example personal to-do entries in the evening, set the time as the standard position.

Information from other programs

You can use the **Paste** command to insert text copied in other programs straight in as an Agenda entry. For example, copy some text in Word using the **Copy** command, move to Agenda and to the position you wish the Agenda entry to appear and select **Paste**.

You can also insert information from other programs into an Agenda entry, e.g. add a sketch of a map to the entry for a meeting appointment. This information is called an “object”.

Attaching Word documents to entries

You can attach a Word document as a “memo” to any Agenda entry, for example a list of things you want to discuss at a meeting. To do this:

1. Highlight the entry to which you want to attach the Word document.
2. Tap the **Word** button on the Toolbar or select the command from the **Edit object** commands on the **Edit** menu.
3. This takes you to a new Word document where you can type in your text. See the ‘*Word User Guide*’ document for more about using Word. When you have finished editing the document, close it to return to Agenda.
 - To see or edit the document later, select the entry with the attached memo and then select the **Word** command again.
 -

Inserted Word object

Inserted sketch

Attaching a “voice note”

You can attach a spoken memo (a “voice note”) or another sound to any Agenda entry. To attach a voice note:

1. Select the entry to which you want to attach the voice note.
2. Select the **Voice note** command from the **Edit object** commands on the **Edit** menu.
3. This takes you to a Record file where you can make the recording in the normal way. See the ‘Record User Guide’ document for more about using the Record program. When you have finished making the recording, close Record to return to Agenda.

To listen to the voice note later, select the entry with the attached voice note and then select the **Voice note** command again. Play the sound in Record and close Record to return to Agenda.

Attaching a sketch

You can add a sketch by attaching a sketch to a text entry as an icon. Select the entry to which you want to add the sketch, then select the **Sketch** command from the **Edit object** commands on the **Edit** menu.

In either case, to see or edit the picture later, select the entry with the attached picture and then select the **Sketch** command from the **Edit object** commands from the **Edit** menu.

Customising Agenda

You can change the view that you see when you open the Agenda and set preferences for inserted objects by selecting the **General preferences** command from the **Tools** menu.

You can change the way each view looks by selecting **View preferences** from the **Tools** menu, while in the view.

In the View preferences, you can select which type of entry you will add if you select an empty day or time slot and just start typing, press Enter or tap on an empty slot.

- You can also select which types of entry you want to show in the Day, Week and Year planner views.
- If you want to change the times shown in the day view to suit your working day, change slot definitions in the Day view preferences.
- If you only want to show one entry symbol in the Year planner, set the ‘Show which symbols’ line in the Year planner preferences to ‘One’. Then select the entry symbol you want to show.

You can change the standard settings for entries by selecting **Entry preferences** from the **Tools** menu, and then selecting the entry type.

Agenda files

You may wish to keep separate Agenda files for business, hobbies and so on.

Create a new Agenda file for your information (using the command on the **File** menu).

- You can now add entries to the new Agenda file. You can use cut, copy and paste to move entries between Agenda files.
- If you have two Agenda files and want to combine them, use the [Merge](#) command from the [File](#) menu.

"Tidying" an Agenda file

You should tidy the Agenda on a regular basis to stop the file from getting too large. To do this:

1. Select the [Tidy/archive file](#) command from the [More](#) commands on the [File](#) menu.
2. You can select whether you want to copy or move old entries to a new file, or delete them. If you move or copy them to a new file, you must specify the name and location of the new file.
If you copy them to a new file, the entries are not removed from the current Agenda file.
3. Select the entries that you wish to tidy, e.g. crossed out entries, and select the entry types you want to tidy by pressing the [Entry types](#) button.
4. Select the range of entries you want to tidy.

Note: If you have moved or copied entries to a new file, you should see the file on the System screen and be able to open it like any other Agenda file.

Printing Agenda entries

You can print all the Agenda entries, or limit the range you print to certain dates of interest, for example only the coming week.

- Before you print, refer to the '*Printing*' document; this tells you how to set up the printer and page.

Tap the [Print](#) button on the Toolbar or select the [Printing](#) command from the [File](#) menu:

- Use the [Page setup](#) command to specify how the entries will appear in the printed copy. You can control the page size, margins, and add headers and footers. See the '*Printing*' document for more about this.
- Use the [Print preview](#) command to display pages showing how the printed copy will look.
- Use the [Print](#) command to print the entries.

When you select [Print](#) or [Print preview](#), you'll see a dialog in which you specify the date range of the entries you want to print.

Press the [Entry types](#) button to set:

- Whether you want to print all repeat entries or only the next one.
- Whether you want to print crossed out entries.
- Whether you want to print only entries with a specific entry symbol.

Synchronising with a PC Scheduler

You can synchronise the Agenda with the PC agenda on your PC using PsiWin, to ensure that both agendas are kept in step with each other.

Note: Refer to the PsiWin on-line help for details of how to synchronise your diaries.

Synchronising entries with a PC scheduler

You can specify for each entry, whether you want to synchronise it with your PC agenda.

Entries that aren't synchronised are marked with a , private entries are marked with a .

1. When adding or editing an entry, press the [Alarm/More](#) button in the entry dialog, then move to the [Other](#) page.

2. Tick the [Synchronise](#) box if you want to synchronise the entry with the PC agenda. Tick the [Private on synchronised agenda](#) box if you want to keep the entry confidential in the PC agenda.

To change the settings of a whole To-do list, select [Agenda synchronisation](#) from the [To-do lists](#) menu. If the To-do list is not synchronised, none of the individual To-dos will be. If the To-do list is set to Private, so are all individual To-dos.
